Harris County Fresh Water Supply District No. 61
Chief Operator of Water and Wastewater Facilities

Position Title: Chief Operator of Water and Wastewater Facilities
Employment Category: Full-time, Supervisory
Reports To: Operations Manager

Location: Cypress, Texas

Description: Under the direction of the Operations Manager, the Chief Operator is responsible for the safe, required operation of all treatment facilities and distribution and collection systems. The Chief Operator will also ensure that process control and system integrity decisions involving public health are being met. Requires a high level of skill, independent judgment and responsibility to operate and maintain in accordance with permit requirements, state and federal regulations and workplace safety rules and regulations. The Chief Operator is a supervisory position and reports daily to the Operations Manager.

Required Skills: Must have 3 years of leadership experience in water/wastewater treatment plants, including distribution and collection systems. Ability to operate, maintain, and service complex machinery. Must be able to respond quickly to emergencies. Perform duties and responsibilities related to testing, sampling, bacterial, chemical, and other monitoring, inspections, and general compliance conditions for water and sewer facilities as necessary to meet rules, regulations, and operating permit requirements. For water systems, these are more specifically identified in the most current version(s) of the Texas Commission on Environmental Quality Chapter 290 Rules, and associated operating permits. Complete all required reporting, including submitting monthly reports as required. Recognize and respond to emergency situations to ensure maximum facility performance and compliance with operating permits. Requires weekend and on-call work.

Required Education: High School/GED required**.** Must have a minimum Class B Groundwater or Surface Water License and a Class B Wastewater Operator License from TCEQ.

Salary: $60,000 - $80,000 DOQ
